### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Gabriela Coman on 4/23/2007.

The application has been amended as follows:

a. Claims 3-4, 8, 10, 12, 15-17, 30, 33-45, 48, and 50-65 have been cancelled.

2. The following is an examiner's statement of reasons for allowance:

The hydrogen generation apparatus as claimed comprised of a fuel chamber, and a spent fuel chamber connected to a catalyst chamber, wherein the spent fuel chamber is configured to receive borate and hydrogen gas from the catalyst chamber; when combined with having the spent fuel chamber being further configured to retain the borate separate from the reactant material; and also combined with having a gas conduit in direct communication with the spent fuel chamber and with the fuel chamber, the combination is missing from any prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
